

Want to improve your research team's efficiency and quality of research?

The Research Process Improvement (RPI) Team can help!

Schedule a consultation! Fill out a service request form at:

www.tuftsctsi.org

Working with the RPI team was very beneficial to our group. Process improvement is something that takes time and organization, two things that are difficult when juggling multiple projects and deadlines, especially in a clinical trials office.

The RPI team took the information gathered in our group sessions and the result took form in a beautifully designed and useful toolkit for all of our staff to use. We were very pleased with the outcome and will work with them again!

Jaime Chisholm
Director, Clinical Research- Cancer, Neely
Center for Clinical Cancer Research
