

6th Annual Asian Health Symposium
**Navigating Change:
 Building Community Resilience
 through Community-Prioritized Research**

Friday, April 3, 2020, 9:00AM-1:30PM

Tufts Center for Medical Education, Room 114
 145 Harrison Avenue, Boston MA

Boston's Chinatown is experiencing tremendous development and economic pressures and changes. Join us at the 6th Annual Asian Health Symposium to learn how the community is navigating change and fostering resilience to improve access to community health and well-being through community-prioritized research.

Join us, and learn about:

- How current real estate and economic development trends impact the health and well-being of the Boston Chinatown community.
- Community prioritized research projects that help foster community resilience.
- Opportunities for cross-sector collaborative actions and advocacy efforts.

This event is sponsored by Tufts CTSI and hosted by Addressing Disparities in Asian Populations through Translational Research (ADAPT).

Space is limited. **Please sign up by Friday, March 27** by visiting this link or scanning the code:
