

Translational Research Day 2020: Broadly-Engaged Team Science

Building Research Teams for Impact on Health: Spanning Disciplines and Stakeholders

Friday, March 6, 8:30AM-3:30PM

Tufts Medical Center, Wolff Auditorium, 800 Washington Street, Boston

The future of research is in your hands.

Learn how broadly-engaged team science and stakeholder engagement can help you to build authentic partnerships for translational research collaboration.

Join us to celebrate innovation, inclusivity, and team-building at this exciting event, featuring:

- A Medical Grand Grounds keynote address by health care advocate **Sharon Terry**, President and CEO of Genetic Alliance in Washington, DC. She is an internationally-recognized patient advocate and leader who identified the gene for a rare disease affecting her two children.
- Lightning talks and panel discussions with experts and innovators from across New England and beyond.
- A digital poster session.
- Interactive afternoon sessions offering resources, tools, and frameworks for building broadly-engaged team science practices into all areas of research.

Lunch will be served. To reserve your seat, please visit:
