

COVID-19 Research Community Forum

Tuesday, August 25 at noon

Want to learn about the latest COVID-19 research happening here at home? Meet online via Zoom with researchers from the four federally-funded Clinical and Translational Science Awards (CTSA) hubs in Massachusetts to hear about how they're working together to protect us from COVID-19.

After the researchers' presentations, there will be an open discussion about health equity. Community members are especially encouraged to attend. Please join us for:

Non-contact (and Socially Distanced) Vital Signs and Medical Measurement

Brian Anthony, PhD

Director of MIT's Master of Engineering in Manufacturing Program, Co-Director of the Medical Electronic Device Realization Center, and Deputy Director for the MIT Skoltech Initiative.

Catherine Ricciardi, DNP, ANP-BC

Nurse Director, Director of Clinical Operations, and Nurse Practitioner; MIT Institute for Medical Engineering and Science Clinical Research Center

To sign up, please fill out this form: <https://bit.ly/2Wjei6Z>

A link to the Zoom meeting will be emailed to you.

Questions?

Please email Project Manager Marguerite Fenwood Hughes, MS, MSW: mfenwood@tuftsmedicalcenter.org.
