

DID TUFTS CTSA AWARDS DIRECTLY FUND THE REPORTED WORK?

NO

Examples: connection was limited to consultation, routine service, or access to a resource, e.g. platform access, REDCap support, recruitment support, or clinical research unit use, when the CTSA award did not directly fund the work

DO NOT CITE THE AWARD. ACKNOWLEDGE SERVICE IF APPROPRIATE.

- REDCap, TriNetX use
- CTRC use
- Grant writing consultation
- Research Navigation
- Other shared resources

Sample Acknowledgement Language:

“Support was provided by Tufts Clinical and Translational Science Institute. Tufts CTSA funding did not directly support the work reported in this product.”

CRITICAL: You are responsible for compliance with the NIH Public Access Policy. Journal articles accepted on or after July 1, 2025 require a no embargo approach (immediate public availability in PubMed Central on the official date of publication.) You must address compliance before submission and confirm pathway at acceptance.

All Publications that cite Tufts CTSA grants must comply with the NIH Open Access Policy, otherwise Tufts CTSI will be considered non-compliant, endangering our funding.
